

PSARA/PSARA Education Fund Presents
Making Retirement Security Real for All

During the 2016 campaign, the President promised he would protect Social Security, Medicare, and Medicaid but his budget proposals contain very significant cuts to these vital programs.

A grassroots movement is building around the country to pressure Congress to not only *protect* these social insurance programs, but to *improve* and *expand* them.

Come learn more about how Social Security, Medicare, and Medicaid were won, and what we can do to make the programs better for present and future generations.

Also learn about the precedent-setting Long Term Care Trust Act, passed by our Washington State legislature and signed into law by Governor Inslee, that will assist families with the cost of long-term care.
